Is your current processor taking advantage of you?

Let's find out...

- 1 Download and forward a copy of your most recent merchant statement.
- 2 Email to grauch@cardconnectaip.com
OR scan & fax to 866-867-1084
- 3 We will contact you to discuss our findings & recommendations.

CardConnect AIP's mission is to be your last processor, by providing HONEST pricing & service, from people who understand your business.

BUSINESSES RELY ON DATA TO SUCCEED.

 **DataSMART™**

**THE SMART AUTOMATIC
SWITCHOVER SYSTEM**

- ✓ **Take control of your gas usage.**
DataSMART™ collects and reports gas usage data for easy analysis.
- ✓ **Never run out of gas.**
Avoid downtime by receiving automatic, real-time alerts when your gas drops to a pre-set trigger point.
- ✓ **Gas flexibility.**
Works with atmospheric gases and some flammable gases from bulk, cylinder or liquid dewars.
- ✓ **Perfect for high-pressure applications in heavy fabrication welding shops.**

MEGAFLO™ GLASS NOZZLES

WT-20 Shown
(250 Amps -
Water Cooled)

- Better weld visibility
- Maximum weld zone protection
- Light weight with replaceable screens

From the company who introduced clear glass nozzles to TIG welding ... comes MegaFlo™

The MegaFlo™ nozzles provide complete weld zone protection for critical welding of reactive metals such as titanium, molybdenum, nickel and stainless alloys.

Available for 1/16, 3/32 and 1/8 electrode sizes and useable on most hand held or machine TIG torches. Order individually by electrode size or in handy kits for all three electrode sizes.

Order yours today! Contact your welding products distributor or TEC Welding Products at (760)747-3700, info@tectorch.com

WeldTec®

TEC Welding Products Inc. ©TEC Welding Products 2015

A Pipe Welders Dream...

Rocker™

Weldtec® introduces a revolutionary new pipe welding TIG torch that takes the stress out of pipe welding.

- No cable twisting or binding
- Precision control of the torch head
- Less hand and grip fatigue
- More amps than standard torches
- Ideal for "walking the cup"

Weldtec's patented cable assembly allows the torch body to rock back and forth eliminating the binding and twisting of the power cable like traditional torches.

Weld pipe with easy, no more fighting the power cable.

Order yours today! Contact your welding products distributor or TEC Welding Products (760)747-3700, info@tectorch.com

LOW-PRO™ M1 INLINE SERIES GAS PACK. MAXIMUM MANEUVERABILITY, QUALITY AND SAFETY.

Durable, industrial ball bearing inline wheels, with pivot-designed higher center wheels, allow the Low-Pro M1 to operate safely and freely over uneven surfaces with heavy gas cylinders.

The Low-Pro M1 has been engineered with a priority on safety. Quality, uniformed product is ensured through the use of robotic welding and advanced process control practices. The sturdy frame and base was specifically built with heavy duty, reinforced construction in mind, making this gas pack a reliable, long-lasting investment.

Why you should choose Low-Pro™ M1 Gas Packs:

- Engineered for safety
- Unique inline, pivot wheel design for maximum maneuverability
- Robotic welded to ensure product quality and uniformity
- Quality wheel construction
- Manifolds and leads are designed, manufactured, assembled, cleaned and tested in-house
- Many manifold options available
- 6 pack and 12 pack cylinder options
- Professionally powder coated
- Compliant with DOT Guidelines
- Proudly Made in the USA

Order yours today!
